Application Name:

Trash Royale

Application Description:

Funny and interactive stats page for Clash Royale; allows users to view previously inaccessible stats and sort them by their liking. Allows more experienced players to increase the difficulty level of the game by providing decks with a statistically low win rate.

Vision Statement:

For gamers, who need more Clash Royale enjoyment. Trash Royale is a service that provides decks to players to give them a challenge. Our product provides a challenge by giving users the worst decks to use in a Clash Royale Game.

Version Control:

Available on our Github

<https://github.com/SeanVSquared/TrashRoyale>

Development Methodology:

Agile Development. Epics and Stories using GitHub project board.

Communication Plan:

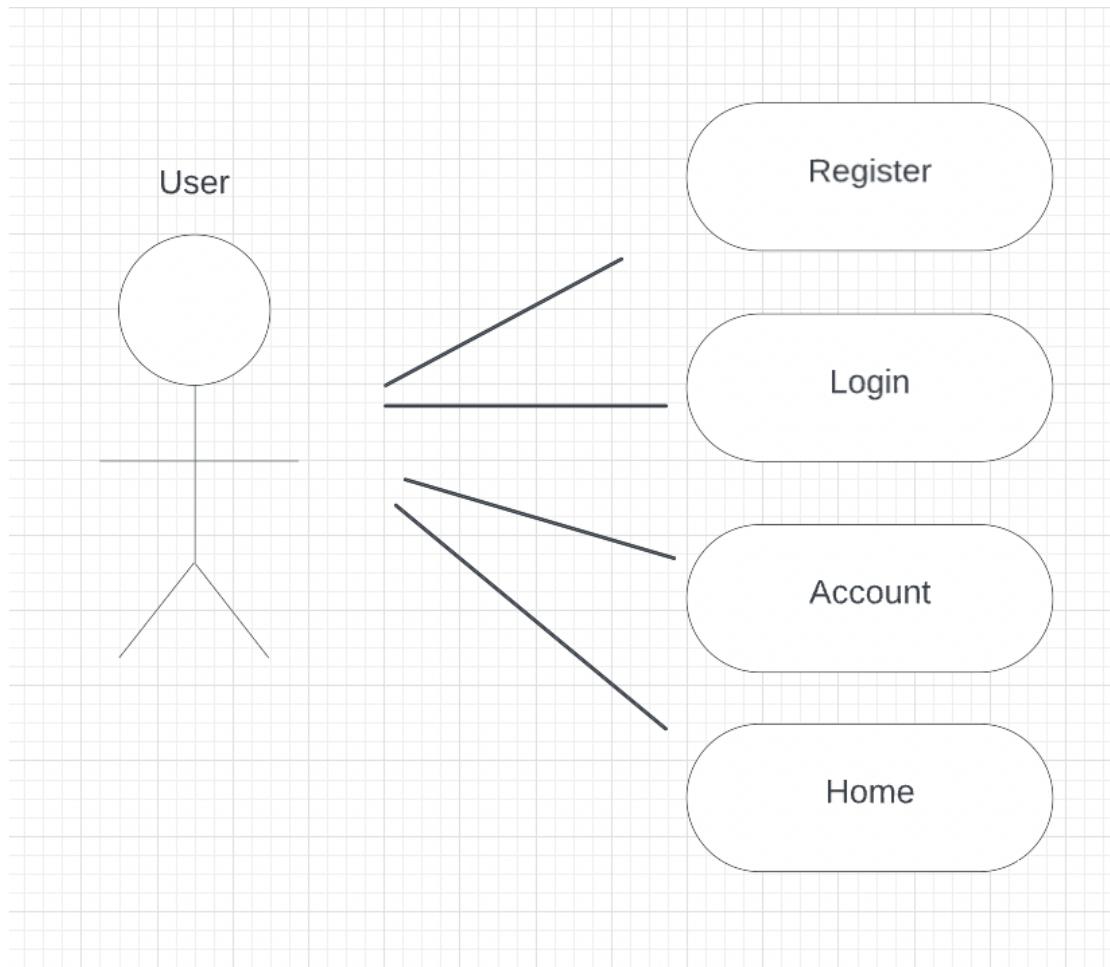

Discord group to keep team members updated on blockers and plans moving forward.

Also communicate during our weekly meetings

Meeting Plan:

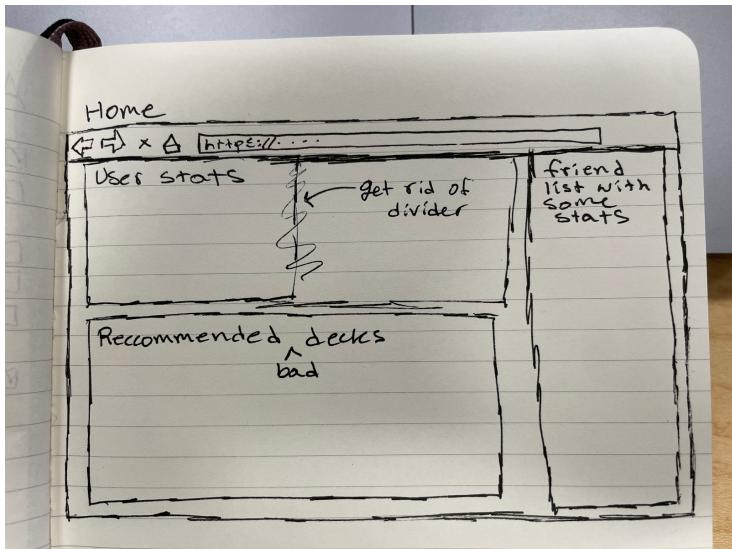

Team Meeting: Meet with team Members from 5:15- 6:00 on Mondays via Zoom

Weekly Meeting with TA: Meeting on Mondays at 5 PM via google meet with TA.
